

## Welcome on Board!

For our R&D Team in Bremerhaven, Germany we are searching for a

### Student placement (m/f/d) - Center of Excellence Fish -

Nomad Foods is Europe's biggest manufacturer of branded frozen food with a declared ambition to grow into a global branded foods business. Frozen fish is our biggest category representing about 40% of our business. In the Fish Category, we share a common purpose: To help Europe eat a little more goodness everyday by eating more sustainable fish. Our site in Bremerhaven is the largest frozen fish factory in the world and is producing brands like iglo, Findus and Birdseye for many European countries.

We are currently looking for a student in our R&D Department for a minimum of a 6-months placement.

#### Key Responsibilities:

- Take part in the product development process from ideation to launch
- Develop new recipes, optimize existing products and solve technical challenges
- Be involved in consumer tests and support factory trials
- Set up scientific tests, define measurement methods and generate accurate scientific data
- Work with several interfaces like R&D, Marketing, Procurement as well as other Factories and communicate remotely across sites (UK, DE, FR, IT)

#### Your profile:

- Student of Food Science/Technology/Engineering or Nutrition
- Creative mindset, passion for food and fish as well as knowledge of ingredients
- Must have English language skills and IT skills (Excel, Word, Power Point) at advanced level
- Ability to operate independently and under your own initiative with appropriate guidance and support
- Commitment and ability to work under pressure, develop and deal with ambiguity

#### What we offer:

- An open minded and international work environment
- Great experience in FMCG in the frozen food field mainly in the fish category
- A constant expanding business with support through an experienced team
- Being a full team member in the R&D department with great spirit and passion for food
- Opportunity to work on your own projects

Interested? We are looking forward to receiving your e-mail application.
